Presentation - Did engage the audience?

Seminar Analysis

What did the speaker do well?

Seminar Analysis

What could the speaker do to improve?

What is Hashing?

What is Hashing?

General: A mapping from objects to numeric values

Specific: A mapping from words to integers

What are the ways to pick a hashing scheme?

What are the ways to pick a hashing scheme?

Most common methods:

1. Random (typical in CS - modulo)
2. Ordered (user id by signup data + something else)
3. Learned (counted based is simplest)
